Hi Rich,

Great, that works for the DEQ team. I scheduled room C here, which is where we hold the TCT meetings, for 1:00 to 3:00 on Wednesday the 25th.

I will also take a shot at an agenda later in the month.

Matt

Matt

EPA proposes holding a meeting the afternoon of Wednesday the 25th if that will work for ODEQ staff and management. Kristine is available to come down that day for the morning TCT Meeting and an afternoon ODEQ-EPA meeting. Please let me know if that timing works at your earliest convenience and Kristine, Chip, and I will get it on the calendars or consider other options.

THANKS!

Rich

Subject: DEQ Source Control January Meeting

Hi Rich,

Following up on our meeting this week I would like to schedule a meeting the week of January 23rd. I propose to change things up a bit as well. Internally, we are feeling the need to have a discussion with EPA regarding riverbank source control and how it is going to fit with the in-water remedial process. This has been on our to do list, but has recently risen to the top here given dialog with some of the upland sites. Please check on Chip/Kristine's availability to participate as the FS/ROD perspective is a necessary part of this discussion. Let me know date/time options on your end. Jim Anderson and Keith Johnson would like to participate as well.

This is probably going to be a two meeting topic. One to introduce the questions/scenarios and possibly an additional one to finalize the strategy.
